

Lewis Park
Work Parties are
every Sunday *Feb - Nov*
from 10 am to 2 pm

Have Fun learning
about Native plants, wildlife habitat,
and how YOU can make
North Beacon Hill
a healthier community!

Int'l District / Downtown Seattle

This project is funded in part by
A Neighborhood Matching Fund award from the
City of Seattle Department of Neighborhoods
and
A King County Wild Places in City Spaces Grant

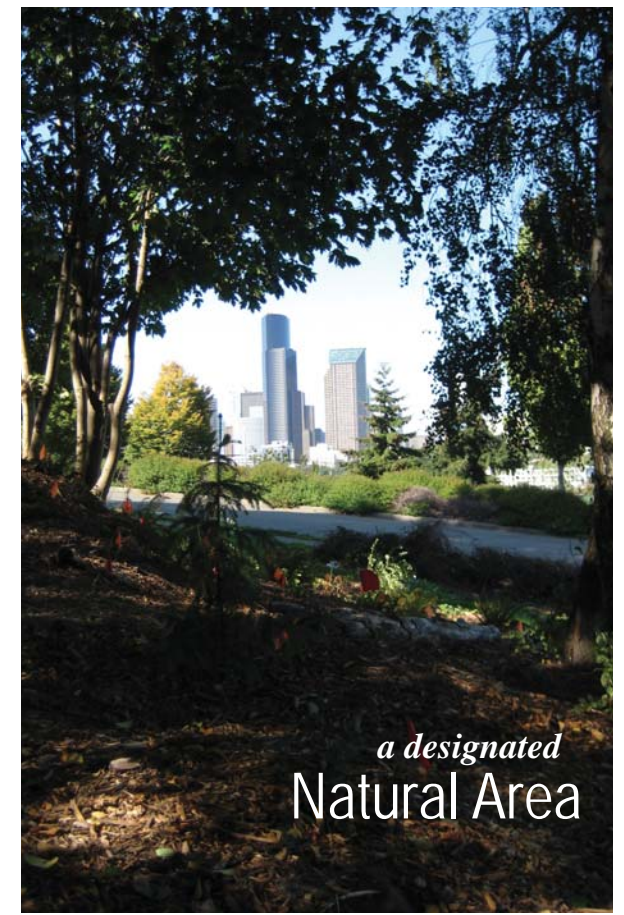

made possible by the
Community of North Beacon Hill

and sponsored by
North Beacon Hill Council
Cascade Land Conservancy
Seattle Parks and Recreation

brochure created, designed and donated by
"Friends of Lewis Park, 2010"

LEWIS PARK

a designated
Natural Area

wild places in city spaces

Please Join Your Neighbors in the Restoration of **LEWIS PARK**

Lewis Park is located on North Beacon Hill between Pac Med and I-90 by the Dr. Jose Rizal Bridge. It was once a neglected, ugly area, overgrown with invasive blackberry and ivy. Now neighbors are joining together to make Lewis Park as it once was: a beautiful Natural Area filled with native plants and trees.

Volunteers learn about native plants and wildlife, help the environment, and make our community a better, more attractive, and safer place to live and play.

Come meet your neighbors, enjoy the native habitat, the views and the shade in the summer! Be a part of community pride by volunteering in the restoration of your own neighborhood urban forest - Lewis Park.
